

CarpetGuard

Water Based Carpet Protectant

Use: Carpet & Traffic Lane Cleaning

What is CarpetGuard?

Water Based. Dirt, soils, and dust do not adhere well to the fluorocarbon fiber coating when used on carpets and upholstery. The result is that treated fibers look cleaner and brighter for longer periods of time between cleaning. **VERY DURABLE!** Most of the treatment remains after extraction cleaning. If retreating, use only one half the suggested level of original treatment.

Benefits:

- Creates an invisible barrier that retards dirt, soils and dust build-up.
- Fibers stay cleaner & brighter for longer.
- Easy to use formula.

Directions For Use:

Read the entire label and MSDS before using this product.

Directions For Use:

Read the entire label and MSDS before using this product.

Vacuum, remove spots, and clean carpet in a manner that will leave the carpet as residue free as possible.

Preparation of spray mixture:

Dry Average Pile Carpet - Dilute 5 parts water with 1 part Carpet Protector and spray 1 gallon of mixture per 100 square feet.

Damp Freshly Cleaned Carpet - Dilute 2 parts water with 1 part Carpet Protector and spray 1 gallon of mixture per 200 square feet.

Apply CARPET GUARD water mixture with a plastic or stainless steel pressure sprayer holding nozzle 12 to 18 inches from the carpet. Apply 1/2 the mixture in one direction and the balance of the mixture in the opposite direction to assure even application. Over application can cause excessive moisture and dulling of carpet.

Tech Specs:

Color.....Clear
 Fragrance.....Faint
 Form.....Liquid
 Phosphates.....None
 FlashPoint.....212F
 pH.....8
 Specific Gravity.....1.03
 Viscosity.....Moderate
 Foam.....None
 Biodegradable.....100%
 Shelf Life.....1 Year

Available Packages
